

Dear fellow parishioners,

The Neighbourhood Plan Steering Group and our community have reached another important milestone in the Neighbourhood Plan process.

After analysis of the information submitted in last year's initial questionnaire, consultation with the Officers of Bath & North East Somerset Council [BANES] and many hours of consultation with parishioners, we now need some further information from you so that the policies in the Draft Plan reflect as accurately as possible, the community's views and needs for the future.

We are going to ask you to please complete two separate questionnaires.

The first is the Housing Needs Survey and a Business survey which is included with this letter.

Once we have allowed two weeks for you to complete and return this questionnaire we will circulate the second questionnaire which will cover the areas of Transport & Movement, Facilities and Amenities and Landscape and the Environment.

We appreciate that not everyone enjoys filling in surveys, but these are important opportunities to **have your say**, and help shape the future of your community, so please help by completing and returning them as instructed.

All the information gathered in this process will be strictly confidential and only the aggregated findings will be presented to us via Worcester Research Ltd and Rag Doll Research & Marketing Ltd.

The results of the surveys will assist the Steering Group in drafting policies for future consultations with Parishioners. We therefore ask you to take the time to fill in the document and we thank you in anticipation for this.

If any member of your household (including Under 18's) wishes to give alternative answers to any of the questions, please reply on a separate sheet and attach to the questionnaire.

I thank you in anticipation of your participation.

John Swift

Chairman, SDPNP Steering Group
